mink

Can you turn the first word in each list into the last word? You can only change one letter at a time. You only have two chances to change a letter to get the correct word. The second word you choose for each list must be a "real" one. The example on the right shows how "sock" is changed into "duck." If you need help, take a peek at the pictures below. They stand for words that can work when added to the middle of a list. Good luck!

sock

dock

duck
